

Promise Hill
PROJECT

WHO WE ARE

OUR MISSION

Promise Hill Project provides basic necessities to impoverished communities in America, Kenya and India to empower both children and adults.

OUR VISION

Promise Hill Project strives to create a world in which all people have equal access to basic human needs, in addition to the opportunity to thrive within their communities.

1. BASIC NEEDS

We provide food, water, period products, clothing, shoes and shelter to children and adults in need.

FACTS:

Millions of children and adults lack access to adequate clothing, shoes, food and water globally, on a daily basis. According to the World Health Organization, an estimated 820 million people worldwide suffer from chronic undernourishment. Approximately 785 million people live without access to safe drinking water. An estimated 150 million people are homeless worldwide.

2. PERSONAL CARE

We provide personal hygiene items such as toothpaste, deodorant and body wash.

FACTS:

Proper personal hygiene reduces illness and opens up doors to job opportunities. Globally, more and more people are choosing to go without simple toiletries such as toothpaste and deodorant in order to afford food to feed their hungry families.

3. EDUCATION

We provide school supplies to students in need.

FACTS:

Education provides life changing opportunities! According to UNESCO Institute of Statistics (UIS), approximately 263 million children and youth across the globe do not attend school. This includes 61 million children of primary school age, 60 million of secondary school age, and 142 million of upper secondary school age.

4. MEDICAL CARE

We provide nutritional supplements and medicine to children and adults.

FACTS:

Access to proper medical care substantially helps in the elimination of death from illnesses such as diarrhea, HIV, malaria, tuberculosis and respiratory disease. Diarrhea, pneumonia, and malaria account for nearly half of all child deaths globally. Nearly 16,000 children younger than 5 years of age continue to die each day- mainly from preventable illness.

ONGOING PROJECTS

UNITED STATES OF AMERICA

Kentucky, Louisiana, New Mexico, Ohio & Texas

Promise Hill collects hotel toiletries, period products, non-perishable food and school supplies to distribute to those in need throughout the United States.

KENYA

Kitengela, Kikambala, Bomani, Kibera, Ruai, Mukuru Kwa Njanga, Nairobi, Bamburi, Mtwapa & Mombasa

Promise Hill collects and distributes period products and educational supplies, and conducts feedings and household economic sustainability programs for those in need in Kenya.

INDIA

Odisha

Promise Hill entered into Odisha, India in October of 2019. We funded a water project that implements piped systems with connections to schools and households, ensuring access to clean water and improved sanitation regardless of caste, class, or gender. This project will take 21 months to complete.

Visit www.promisehillproject.org today to contribute to the Promise Hill Mission!

AMERICA: Mount Sterling, Ohio Mount Sterling Community Center

Promise Hill donated our 'Bag of Love', which was filled with personal care items such as shampoo, deodorant and body wash. Through the generous staff at the Mount Sterling Community Center, 56 families in need received nearly 300 personal care products.

KENYA: Ruai, Nairobi Shamba Children's Home

Promise Hill distributes period products to females in need throughout Kenya on a regular basis. Upon arrival at Shamba Children's Home, we learned that the young girls did not have access to period products. We arrived and served at just the right time of need. To date, we have distributed 24,579 period products in total throughout Kenya and America.

INDIA: Odisha

In October of 2019, Promise Hill funded our first water project in Odisha, India. This project was much needed, as the population in Odisha is estimated at 43 million and only 10-20 percent of that total population have access to improved water and sanitation services. Once completed, this water project will lead to increased health, increased job opportunity and education.

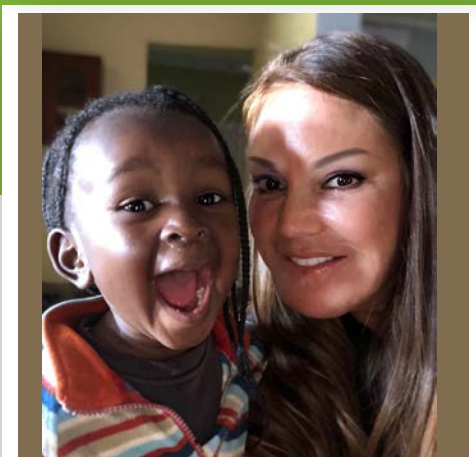

KENYA: Kikambala & Bomani

In July of 2020, Promise Hill held a community feeding and household economic sustainability program. We served 20 families and an estimated 500 people with food and seedlings to grow gardens. In response to COVID-19, we provided masks and sanitizer. With 36% of Kenya's total population of 51 million living below poverty level, food is one of the biggest needs.

CORPORATE SPONSORS

We establish strong relationships with like-minded businesses in order to make an even bigger impact. By doing so, we are able to assist larger numbers of people with larger product distributions. (Pictured above: Sunshine P&O, Wayne, New Jersey)

THE FOUNDER

Lisa Arbogast founded Promise Hill with a basic desire to help those in need. Within a surprisingly short time, Promise Hill now serves impoverished communities in three countries on three continents.
